

## Provisional agenda for the workshop 'Headache fractions in mixed municipal waste' 11 May 2023, online via Zoom

### Meeting aims:

- To launch and provide an overview of the report 'Headache fractions in mixed municipal waste' and respective insights and learnings;
- To reflect and discuss with experts on issues and what needs to change to increase recycling and promote circularity of certain consumer products (e.g., beverage carton cups, smart products, expanded polystyrene, mattresses, furniture etc.) which pose significant waste management challenges and/or end-up in landfill or incinerators.

### Registration

- To participate in the event, please register in the following link: <https://bit.ly/42KMgXL>
