

Agenda for the workshop “Headache” fractions in mixed municipal waste 11 May 2023, online via Zoom

Meeting aims:

- To provide an overview of the report [‘Headache fractions in mixed municipal waste’](#) and respective findings;
- To reflect and discuss with experts on issues and what needs to change to increase recycling and promote circularity of certain consumer products (e.g., beverage carton cups, smart products, expanded polystyrene, mattresses, furniture etc.) which pose significant waste management challenges and/or end-up in landfill or incinerators.

Registration

- To participate in the event, please register in the following link: <https://bit.ly/42KMgxl>
